

Monthly Financial Dashboard

OLIST E-COMMERCE DATASET

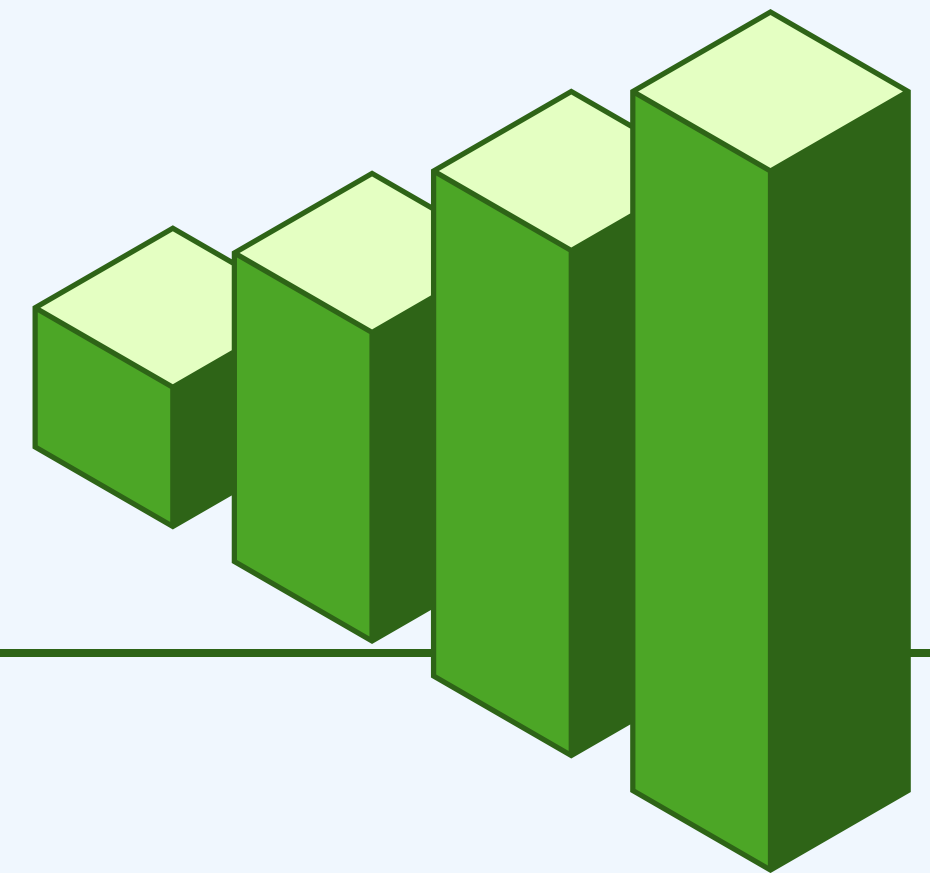

Project Overview

Objective:

The goal of this project is to analyze monthly financial performance and delivery operations using the Olist E-Commerce dataset

Key Business Questions:

- What is the total revenue generated?
- How do actual revenues compare to expected revenues?
- What are the monthly order trends?
- How efficient is the delivery process?
- What are the main order statuses?

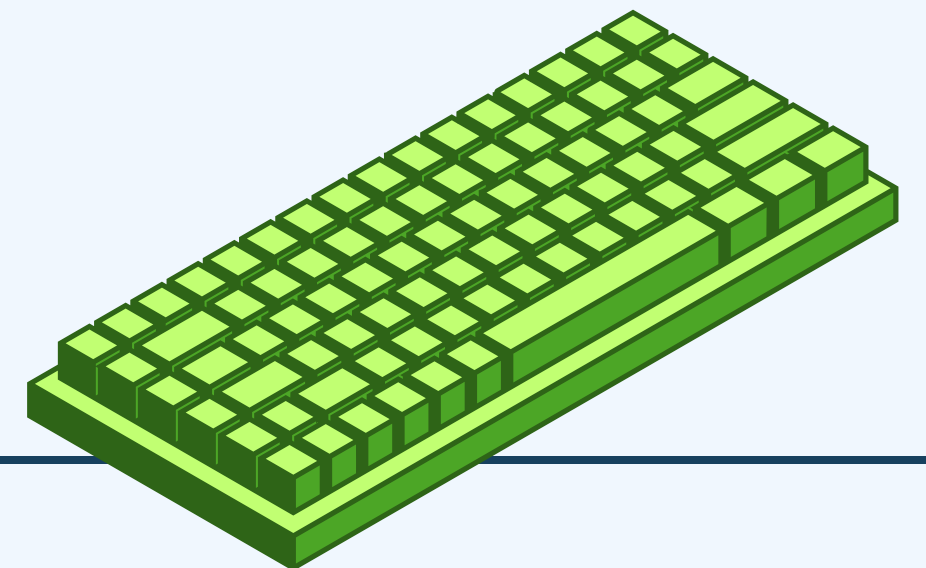

Data Preparation

Data Sources:

- Orders Dataset
- Order Items Dataset
- Order Payments Dataset

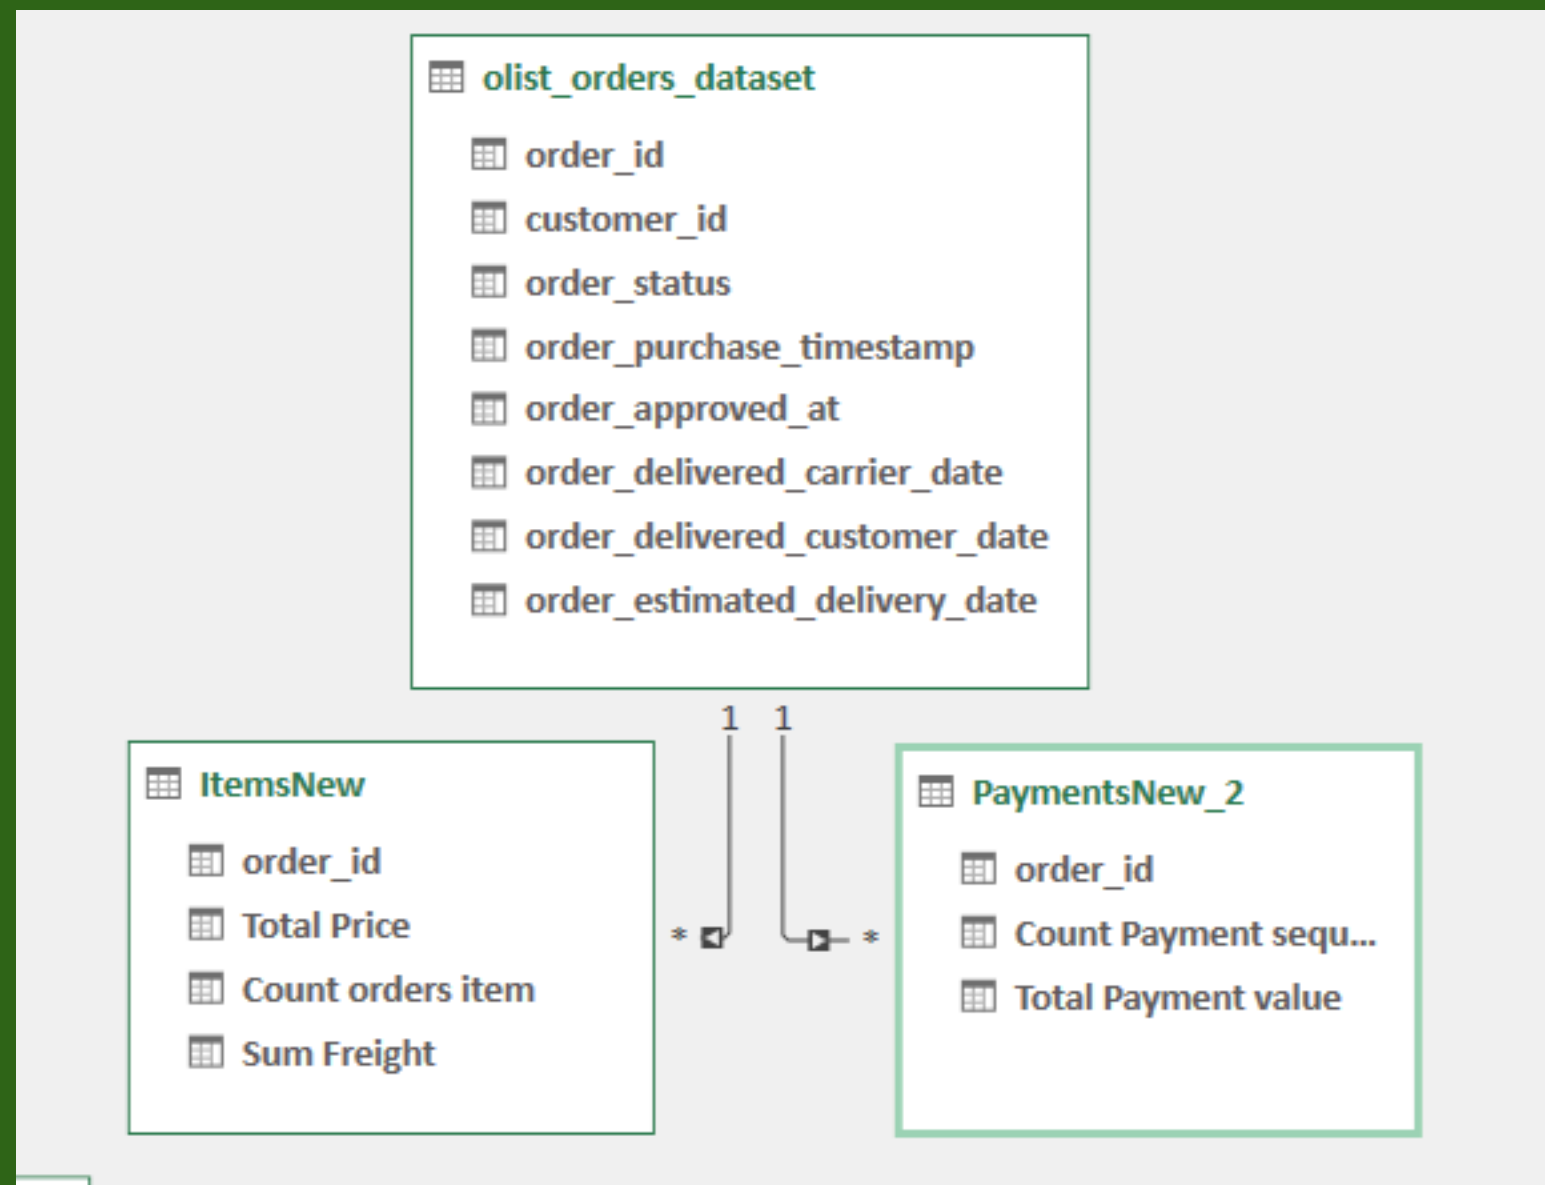

Data Cleaning & Transformation:

- Removed duplicates
- Handled missing values
- Created calculated columns
- Built Payment Status
- Calculated Delay Days
- Created aggregated tables (ItemsNew & PaymentsNew)

Data Modeling

Relationships:

Measures Created:

- Total Revenue
- Expected Revenue
- Total Payments Received
- Revenue Reconciliation %
- Late Orders
- Average Delay Days

Dashboard KPIs

Financial Overview:

Total Revenue
\$15.4M

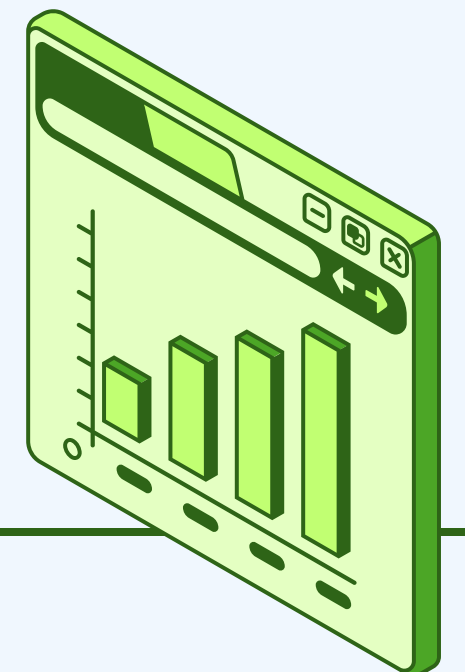

Total Payments Received
\$16.0M

Expected Revenue
\$15.8M

Revenue Reconciliation
97.34%

Key Insight:

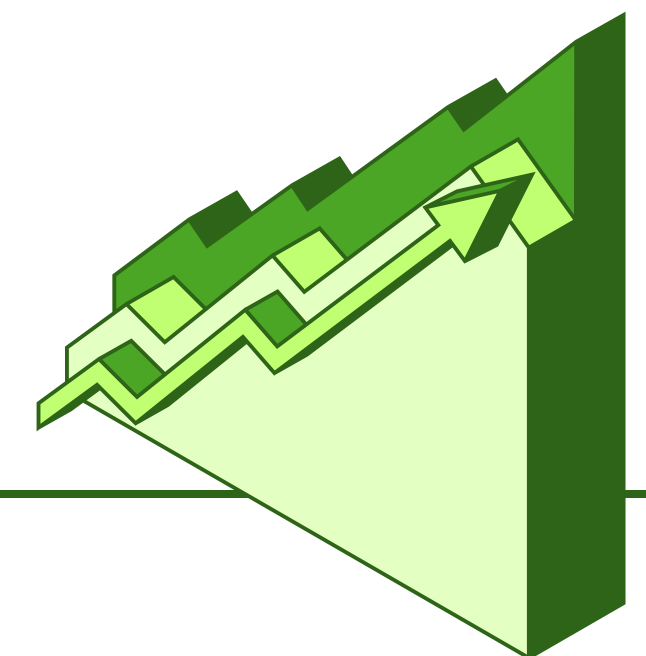

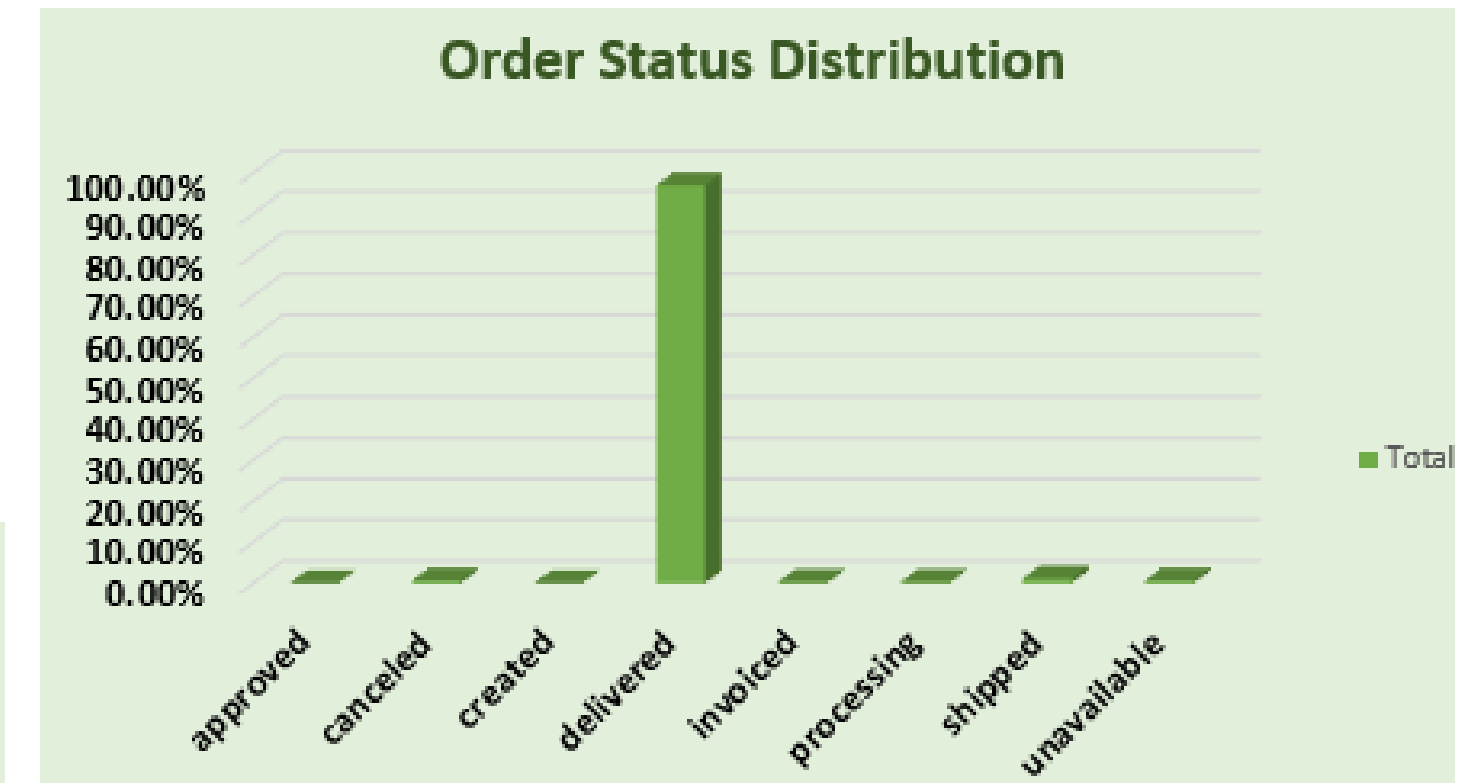

Revenue collection is highly aligned with expected revenue, achieving over 97% reconciliation.

Order & Revenue Analysis

Findings:

- Orders increased significantly during 2017-2018.
- Delivered orders represent the majority of all orders.
- Revenue showed consistent growth over time.
- Average Order Value remained relatively stable.

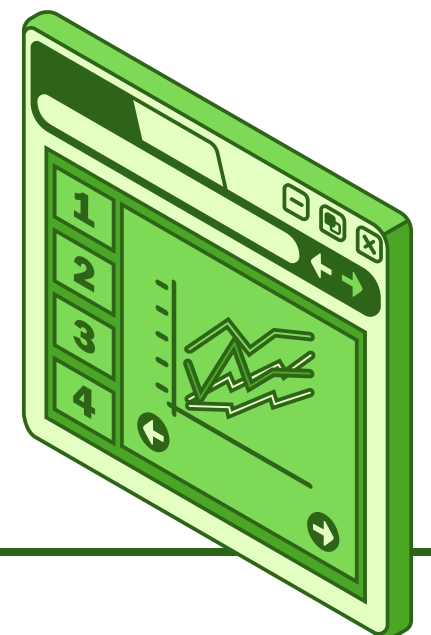

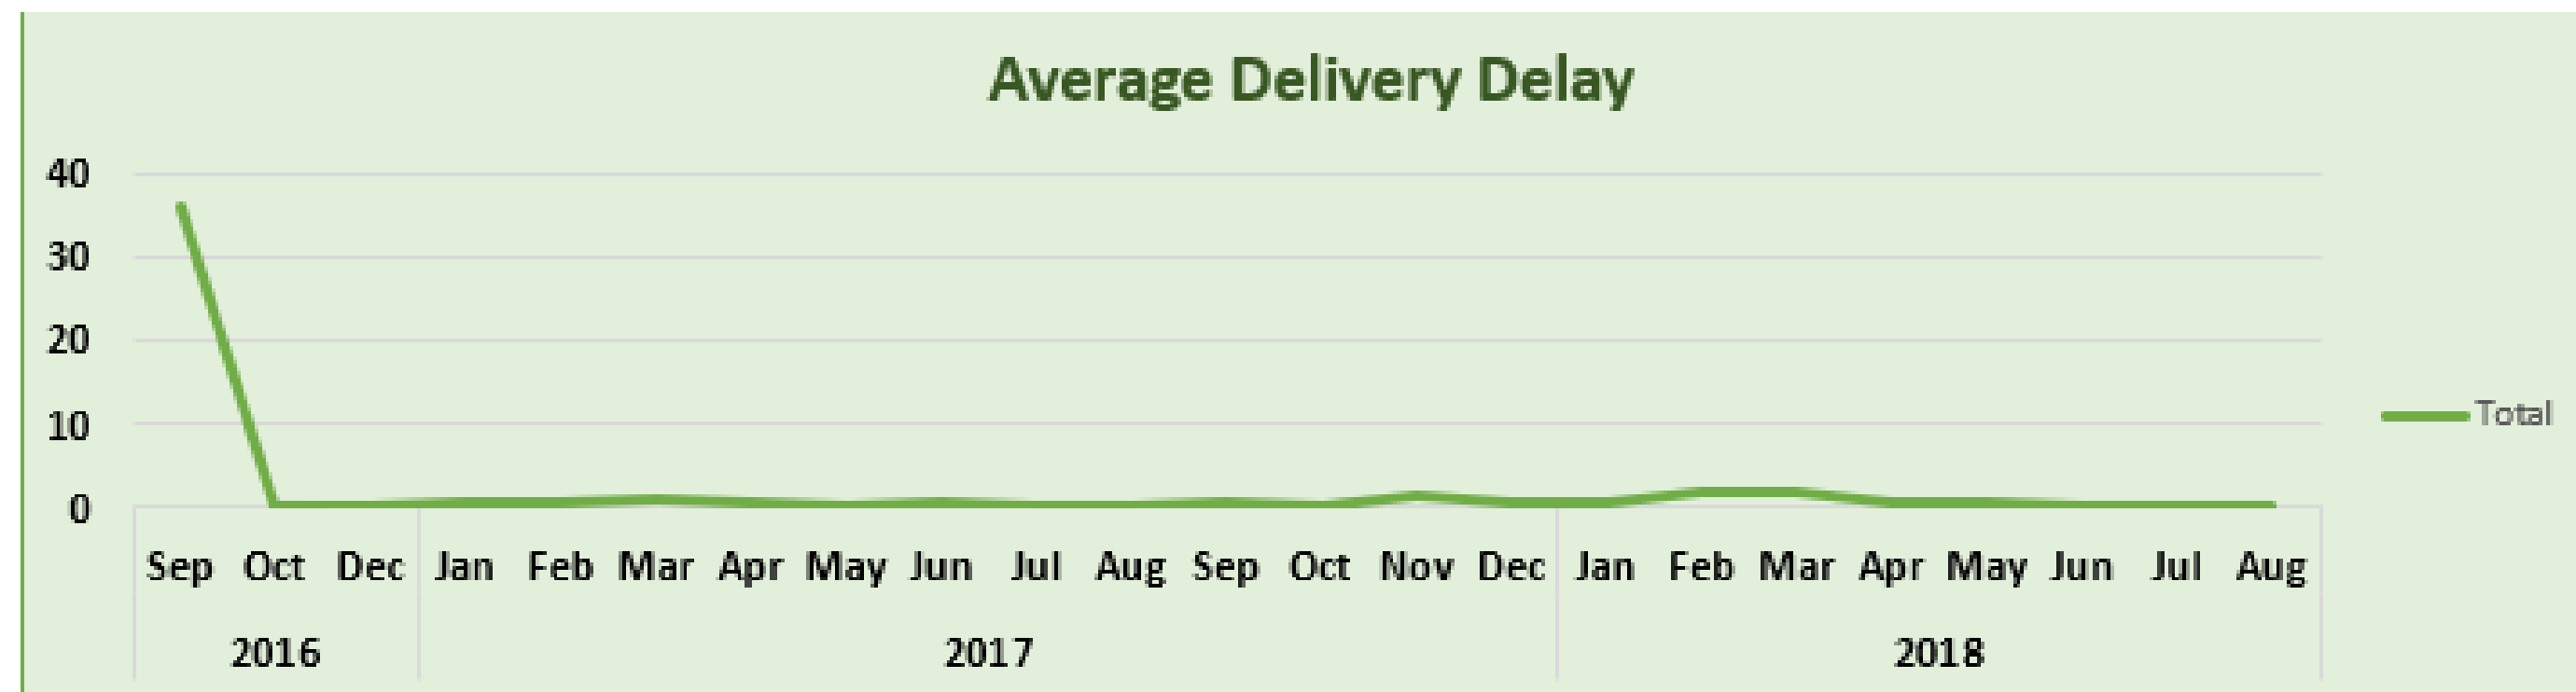

Delivery Insights

Findings:

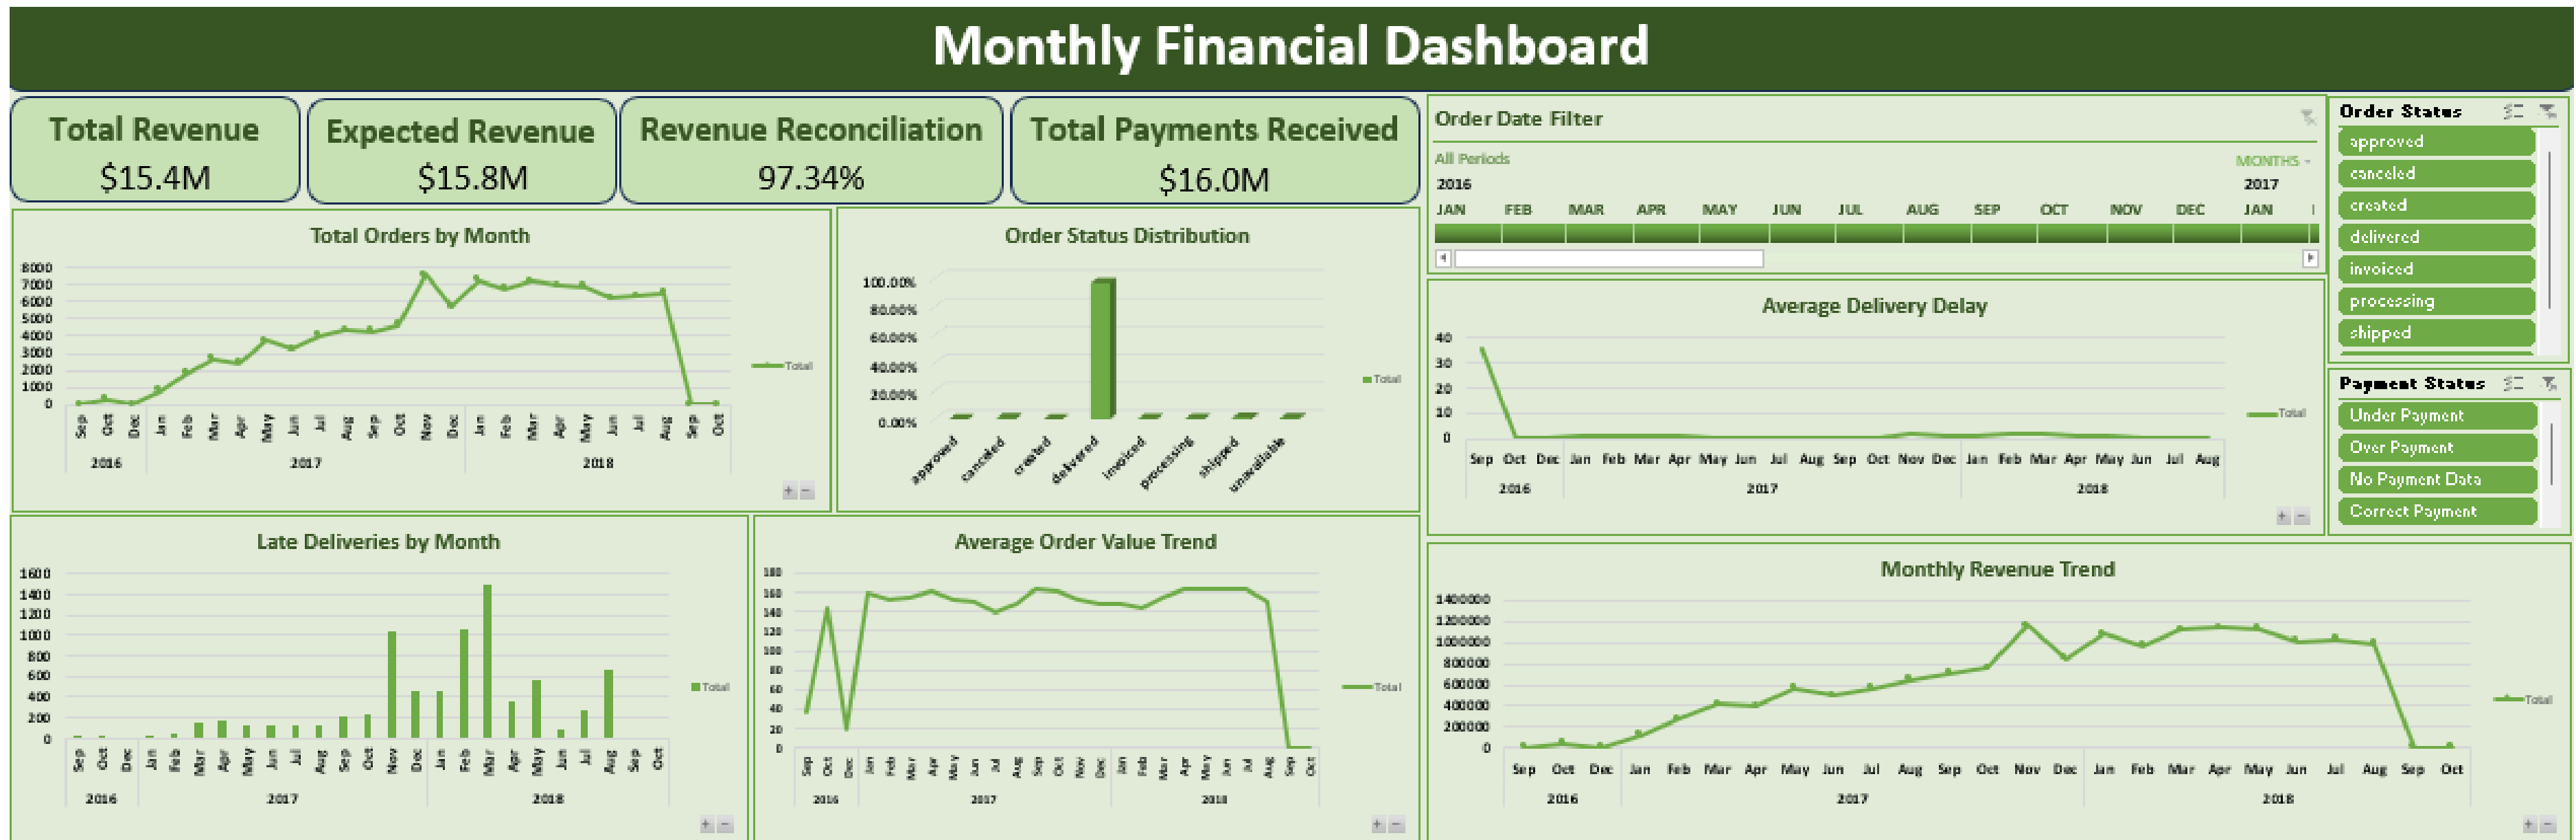

- Most orders were delivered on time.
- Average delivery delay remained below one day.
- Late deliveries represented a relatively small percentage of total orders.

Business Impact:

Efficient delivery performance contributes to customer satisfaction.

The Dashboard

Total Orders by Month

Month	Total Orders
Sep 2016	100
Oct 2016	200
Nov 2016	100
Dec 2016	500
Jan 2017	1000
Feb 2017	2000
Mar 2017	3000

Conclusion

Project Outcomes:

- ✓ Built an interactive financial dashboard
- ✓ Performed data cleaning and modeling
- ✓ Created KPIs and business insights
- ✓ Enabled filtering through slicers and timeline controls

Thank You
